Professional Summary

AI educator and technical content creator with 25+ tutorials on RAG systems, LLM deployment, and workflow automation for 41,500+ subscribers. Combines 4+ years of enterprise tech support with hands-on expertise building production AI systems (RAG, n8n workflows, VPS-hosted LLMs). Known for patient problem-solving, clear technical communication, and translating advanced AI topics into actionable learning.

Experience

AI Tutorial Creator & Technical Educator – Mike Murphy, LLC (2015 – Present)

- Created 25+ AI-focused tutorials (2024-2025) teaching RAG systems, Claude Code, n8n automation, Ollama LLM deployment, PostgreSQL/pgvector, and VPS hosting to 41,500+ YouTube subscribers.
- Built and documented production AI systems including custom RAG implementation for mining chat history, self-hosted n8n workflows on VPS, and Ollama-based local LLM deployments.
- Delivered real-time technical support across YouTube comments, social media, and email with 100% response rate, debugging complex issues and guiding users through AI tool adoption.
- Demonstrated thought leadership through 155-episode podcast documenting transition from “Tech Handyman” to “RAG Handyman” and publishing 1,500+ total tutorials with courses on Domestika.

Senior Technical Account Manager – SimpleCast + Sirius XM (2018 – 2022)

- Delivered platform training and technical support to 100+ enterprise clients using Intercom & Zendesk, consistently achieving SLA targets.
- Managed complex technical account issues related to podcast hosting, distribution, and analytics, while creating customized support documentation and video tutorials.

- Created knowledge transfer materials and coordinated directly with product and engineering teams via Asana, Jira, and Slack to ensure smooth client onboarding after acquisition.

Studio Manager – Heather Donlan Photography (2007 – 2016)

- Provided full-spectrum creative and tech support, managing photo retouching, web updates (WordPress), invoicing (FreshBooks), and IT troubleshooting for a busy photography studio.
- Developed expertise across Adobe Creative Cloud, WordPress, and Google Workspace through continuous self-learning and hands-on experimentation.
- Maintained operational continuity by serving as the studio's primary tech resource, solving IT and workflow issues quickly to ensure seamless client service.

Education

Masters in Law Administration | University of Denver School of Law (2005 – 2007) | GPA: 3.98

B.A. English (Cum Laude) | Univ. of Massachusetts-Amherst (1988 – 1992) | GPA: 3.35

Skills

AI & Machine Learning: RAG Systems, Vector Embeddings, LLM Deployment (Ollama, OpenAI, Claude, Gemini), Prompt Engineering, sentence-transformers | **Development:** Python, PostgreSQL/pgvector, VPS Hosting, GitHub, Docker, API Integration | **AI Tools:** n8n, Claude Code, Streamlit, Neon Postgres, Postman | **Content Creation:** Technical Tutorial Production, Video Editing, Podcasting, After Effects, ScreenFlow | **Support Tools:** Intercom, Zendesk, Asana, Jira, Slack | **Core:** Patient problem-solving, Technical communication, Self-directed learning

Featured Projects

CV-RAG: Interactive AI Resume System | Production RAG system combining vector search and LLM generation for chat-based resume interface. **Stack:** Python, PostgreSQL/pgvector, Ollama, n8n, Streamlit. Demonstrates end-to-end AI architecture.

Chat History RAG System | Custom RAG implementation for semantic search of AI conversation history. Featured in YouTube tutorial. **Stack:** Python, vector embeddings, PostgreSQL/pgvector, LLM integration.

Self-Hosted AI Infrastructure | Production VPS environment hosting Ollama models, n8n workflows, and PostgreSQL databases. Enables cost-effective AI experimentation outside cloud lock-in.
